What We Do

CREATE PARKS

Providing play space and nature and water access to people of all ages and walks of life to enjoy, unwind, and refuel

SAVE OPEN SPACE

Delivering countless benefits, such as protecting forests and other ecosystems, improving air quality, combatting the effects of climate change, and maintaining our quality of life

PRESERVE FARMLAND

Upholding our county's pastoral character and agricultural roots; maintaining fresh, healthy food sources; and supporting farming

TEACH ENVIRONMENTAL SUSTAINABILITY

Planting the seeds of curiosity, appreciation for nature, and a sense of wonder at a young age - fostering the future stewards of our land

SAFEGUARD WATERWAYS

Protecting and maintaining the health of the lands around our waterways, thereby improving the quality and supply of water, a critical resource to life on earth

PROTECT WILDLIFE

Promoting biodiversity and providing a haven for animals and plants - including threatened and endangered species
